

# smile!

Now, the smile  
you've always  
wanted is easier  
than ever.

**IPS e.max<sup>®</sup>**  
all ceramic all you need

# minimum dentistry

There is no substitute for your own natural tooth structure. However, with e.max, your dentist can give you the smile makeover you've always wanted or the necessary dental treatment you need, nothing more and nothing less.

e.max allows your dentist to improve your smile with a minimal amount of tooth preparation. The more natural tooth you are able to keep, the better, the healthier and the more vibrant your new smile will look.

# maximum results

Do you like your smile? Have you ever wanted to change the appearance of your teeth? Do you have reservations about what is involved with a “smile makeover”? If you answered yes to any of these questions, it might be a good time to talk to your dentist about e.max. e.max is a revolutionary ceramic that offers beauty and strength never seen before in dentistry. You can finally get the smile you have always wanted.

## e.max gives you

- Your ideal smile – with beautiful, naturally translucent restorations that blend with your teeth
- Clinically proven, long-lasting results that are stronger than other tooth colored all ceramic restorations
- Easier, quicker and more comfortable dentistry

# Improving your smile

Are you interested in a total smile makeover? Or maybe just a small improvement to your existing smile? With e.max from Ivoclar Vivadent, you enjoy the flexibility to change as much or as little as your want. The first step is to talk to your dentist. Explain what you like and don't like about your smile. Whether it's the size or shape of your teeth, the color, the spacing, or any other issue, chances are your dentist can change them with e.max.

## **e.max is ideal for correcting:**

- Chipped or cracked teeth
- Discoloration or staining
- Gaps or spaces between teeth
- Uneven, worn or small teeth
- Slightly crooked or crowded teeth
- Unsightly metal restorations

Ask your dentist to schedule a thorough examination and determine the e.max treatment that's right for you. Based on your needs, your new smile may involve veneers, inlays/onlays, crowns, implants or bridges. All of these are possible and beautiful with e.max.

## **thin is in!**

e.max thin veneers are up to three times stronger than other ceramic veneers so you can enjoy years of healthy worry-free smiles!

# natural looking results

Your dentist can restore your smile with natural looking restorations that everyone will think are your natural teeth.
